

Hardware Services

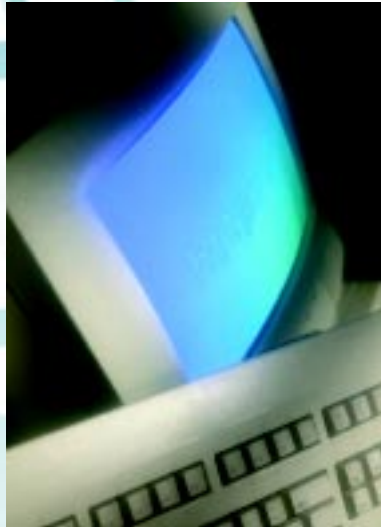

Right Parts, Right Price,
Right Now!

Quality Parts From An Industry Leader

At Atlantix Global Systems, we are committed to being the preeminent source for midrange systems. The goal of our Hardware Services Group is to provide our partners with quality spare parts and components along with the information they need to keep their equipment operating at peak performance.

Atlantix Global Systems carries thousands of new and refurbished parts supporting major manufacturers of midrange systems and peripherals. We stock parts for well-known brands and models such as; IBM AS/400®, IBM RS/6000®, HP 9000®, Sun Microsystems®, Perle® and Cisco®, as well as, for harder to find brands such as Memorex Telex®, IPL® and EMC®.

- HP 9000 Parts & Features

- Processors
- Power Supplies

Multi-Vendor = Multi-Opportunity

Count on Atlantix Global System's experienced professionals to help you make sense of today's multi-vendor environment. Our Hardware Services Group has helped many companies move into new areas of midrange maintenance and support.

We can assist you with identifying your spare parts requirements, preparing recommended spares lists, training your service staff and even arranging to provide various levels of telephone support.

We have a variety of programs designed to assist you with account retention and new account development. We are NOT in the maintenance business, but with our years of experience supplying the parts that help keep the nation's midrange systems running, we can help bring a unique perspective to helping you solve some of your most perplexing problems. Before you tell your customer "no", give your Atlantix Global Systems Hardware Services representative a call and let's see if we can turn that into a "yes".

Pretested Parts Deliver Quality and Performance

To make sure the equipment and parts you buy work upon installation, we test all of the pre-owned parts and equipment we sell in our state-of-the-art 14,000 square foot refurb and technical center. With our staff of over 25 manufacturer-trained engineers and refurb technicians, Atlantix strives to deliver the best quality and value in new and refurbished parts.

Delivery Options To Meet Your Needs

Atlantix Global Systems ships parts and equipment via all major air and ground carriers. We offer service from Federal Express, Airborne and UPS. Overnight not fast enough? Our staff of transportation specialists can ship our package to almost any airport in the U.S.A. the same day for a flat fee of \$119.00 (some restrictions apply).

We Are Open When You Are

Our business is a 24-hour business just like yours. When you need parts at 3a.m. or on a weekday or holiday, you don't need to be leaving messages with an answering service or repeatedly dialing a pager hoping for a callback. You need answers NOW. That's why we developed our after-hours service – it was designed with you in mind. We have a trained Atlantix Global Systems representative answering our phones 24 hours a day – every day. And that representative has the latest equipment to be able to access our inventory and get you the answers you need FAST. Combine this with our \$119.00 next flight out service and you can have your parts on site before many companies get around to calling you back.

Not Just Parts, A Partner

Atlantix Global Systems has become one of the largest midrange computer remarketers in the country by building partnerships with our customers. We trace our roots back to 1976 and many of those original customers are still with us today. Our Hardware Services Group operates on these same principles. When you need parts, components, features or just advice on midrange hardware, call your Atlantix Global Systems representative and let us show you what we can do.
